

DEVELOP TEAM TRAINING FOR EMERGENCY SCENARIOS

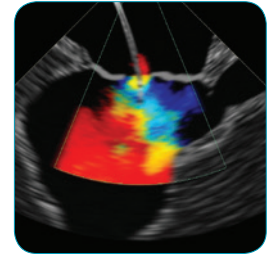

AHA Scientific Sessions
Exhibition: 12 - 14 Nov
Anaheim, California

Mentice booth 2342

LET US HELP YOU PLAN YOUR VISIT TO AHA SCIENTIFIC SESSIONS

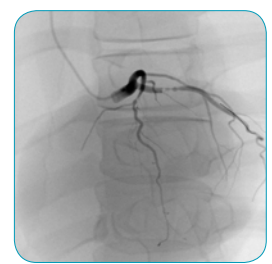

Join us at AHA scientific sessions at booth 2342, we will be offering a space where you can discover state-of-the-art educational software for hands-on individual skills training as well as team training.

Intracardiac Echography

Some of the simulated procedures we offer:

- PCI including AMI, bifurcation, CTO
- TAVR – transfemoral and transapical
- LAAO
- ASD / PFO
- Cardiac Rhythm Management
- Electrophysiology
- Carotid intervention
- Acute Ischemic Stroke

Coronary intervention - STEMI

AHA SIMULATION SESSIONS

As part of this year's AHA Scientific Sessions program we will be offering our simulators for you to train on - during the official simulation sessions.

Our collaboration with Laerdal, SimMan® Vascular, will also be featured in the sessions. The Laerdal SimMan Vascular provides a fully immersive clinical pathway training of acute procedures.

All sessions will be held at booth 2149, Science and Technology Hall.

Sunday 12 November

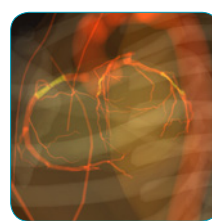

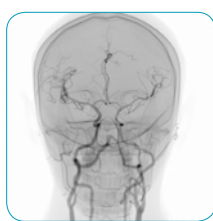

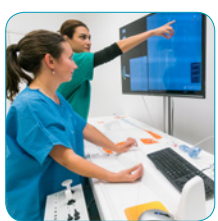

- 11:15 - 11:45 - Valvular Heart Disease Simulation: TAVR I
- 15:45 - 16:15 - Coronary Intervention Simulation: Core Angiography Skills
- 16:15 - 17:00 - SimMan Vascular: Acute Myocardial Infarction I

Monday 13 November

- 10:45 - 11:15 - Valvular Heart Disease Simulation: TAVR III
- 11:45 - 12:30 - SimMan Vascular: Acute Ischemic Stroke II
- 15:00 - 15:30 - Endovascular Intervention Simulation: Peripheral Angiography

Tuesday 14 November

- 11:15 - 11:45 - Endovascular Intervention Simulation: Iliac/SFA Intervention
- 13:15 - 13:45 - Coronary Intervention Simulation: Advanced Skills
- 13:30 - 14:15 - SimMan Vascular: Acute Myocardial Infarction IV
